 Health and Social Care
 BTEC First Diploma in Sport
 Media Studies
 ICT

THE LINK

We have combined our Sixth Form courses and teachers with those in the other two local comprehensive schools to form the Yate / Chipping Sodbury Link Sixth Form.

This pooling of resources means students can widen their choices and select exciting and interesting combinations of courses.

These courses are taught across the three campuses and free transport is provided for students travelling to other schools.

The Link has operated for some twenty years and is a highly significant factor in the successful provision of quality education for young people in the community. The broadening of the curriculum brought about by the new AS levels has given us the opportunity to develop the link still further.

SIXTH FORM ADMISSIONS CRITERIA

In our Sixth Form we work very hard to place students on appropriate courses which match their needs and abilities.

KEY SKILLS

We aim to integrate the key skills of Communication, Application of Number and ICT into many Sixth Form lessons. In addition, all Level 2 students have further lessons in key skills enabling them to gain further qualification.
